

Step-Through Electric City Bicycle with Passenger Seat

This electric bicycle is designed with a step-through frame for easy mounting and dismounting. It includes a front basket and a rear passenger seat with a backrest, making it suitable for urban commuting.

Overview

Urban Commuter Electric Bicycle

This step-through electric city bicycle is designed for convenient urban commuting and recreational use. It features a user-friendly frame geometry for easy mounting and dismounting, paired with a dedicated rear passenger seat equipped with a backrest. The integrated pedal assist system and suspension fork ensure a comfortable and efficient ride across city environments.
