

Step-Through Electric City Bike with Storage

This electric city bike features a step-through frame for easy mounting and dismounting. It includes a rear storage compartment, front and rear lights, and an electric motor to assist with propulsion.

Overview

Urban Mobility Solution

This step-through electric city bike is engineered for efficient urban commuting and leisure riding. It features a convenient storage compartment located behind the seat, enhancing its utility for daily errands or short trips. With integrated safety features like front and rear lighting and rear-view mirrors, it offers a reliable and comfortable experience for city navigation.
