

Step-Through Electric Commuter Bicycle with Fenders and Rack

This electric commuter bicycle features a step-through frame, front and rear fenders and a rear rack. It is equipped with a battery pack and an electric motor, suitable for urban commuting and recreational riding.

Product Overview

Designed for Urban Mobility

This step-through electric commuter bicycle is engineered for convenience and comfort in urban environments. Featuring a robust black frame with integrated front and rear fenders and a practical rear rack, it provides a reliable solution for daily commuting and recreational riding. The design prioritizes ease of use with its step-through geometry, allowing for effortless mounting and dismounting.
