

# Step-Through Electric Tricycle with Passenger Seat

Electric tricycle designed with a step-through frame for easy access and a front basket for carrying items. It also features a rear passenger seat with armrests, making it suitable for urban commuting and leisure rides.

## Overview

### Versatile Urban Mobility

This electric tricycle is designed for both urban commuting and leisure, featuring a convenient step-through frame that allows for easy mounting and dismounting. Equipped with a comfortable rear passenger seat including armrests, it offers a practical solution for carrying a passenger or cargo. The tricycle combines safety and style with integrated features like a front headlight, side mirrors, and a durable pneumatic tire setup on alloy wheels.
