

Step-Through Frame Bicycle with Basket

This bicycle is designed for general use and features a step-through frame for easy access. It includes a front basket, mudguards, and a multi-speed drivetrain.

Product Overview

Versatile Step-Through Bicycle

This step-through frame bicycle is engineered for convenience and daily utility, featuring an accessible design that simplifies mounting and dismounting. Equipped with a practical front basket and protective mudguards, it is well-suited for urban commuting, leisure riding, and running errands. The multi-speed drivetrain ensures adaptability across various terrains, while the sturdy frame construction balances durability with ease of handling.
