

Step-Through Frame City Bicycle

This step-through frame bicycle is designed for comfortable urban and touring rides. It features front and rear fenders, a rear rack, and a front basket.

Overview

Design & Utility

The T3 is a versatile step-through frame bicycle engineered for optimal comfort during urban commuting and leisure touring. Its ergonomic design features upright handlebars and a comfortable saddle to ensure a relaxed riding posture. Equipped with practical utility features like front/rear fenders, a rear cargo rack, and a front basket, it is perfectly suited for daily errands and light travel.
