

Step-Through Frame City Bicycle

This bicycle is designed for city or commuter use with a step-through frame. It is equipped with front and rear fenders, a rear rack, and a sprung saddle.

Overview

Designed for Urban Comfort

This step-through frame city bicycle is engineered for effortless commuting and relaxed urban riding. Featuring a practical design with essential accessories like front and rear fenders and a rear cargo rack, it prioritizes rider convenience. The inclusion of a sprung saddle ensures comfort during daily trips, while the reliable hand brake system provides confident stopping power in city traffic.
