

Step-Through Frame City Bicycle

This city bicycle features a step-through frame, making it easy to mount and dismount. Equipped with fenders, a rear rack, and a comfortable saddle, it is designed for practical urban use.

Product Overview

Sturdy Single Top Tube City Bicycle

This classic city bicycle features a durable steel frame design optimized for comfort and urban utility. Equipped with a reliable rim braking system and practical accessories like a chain cover and mudguards, it is built for everyday transportation. The rear carrier and stable double stand make it an excellent choice for daily errands or casual commuting.
