

Step-Through Frame Electric Bicycle

This electric bicycle features a step-through frame for easy mounting and dismounting. It includes front and rear fenders, a front carrier rack, and a battery pack for convenient urban transportation.

Overview

Designed for Accessibility and Comfort

This step-through frame electric bicycle is engineered for easy mounting and dismounting, making it an ideal choice for urban commuting and leisure riding. The design features a convenient front carrier rack and integrated front and rear fenders to protect against the elements. With a battery pack mounted behind the seat post and a front hub-integrated motor, it offers a balanced and reliable ride for daily transport needs.
