

Step-Through Frame Electric Bicycle with Integrated Lighting

This electric bicycle features a step-through frame, front basket, and rear rack. It also has an integrated lighting system and is equipped with a hub motor.

Overview

Urban Mobility Solution

This step-through frame electric bicycle is engineered for comfortable and efficient urban commuting. Featuring an integrated lighting system and practical utility additions like a front basket and rear rack, it provides a complete solution for daily travel. The robust metal frame construction ensures durability, making it an ideal choice for both professional delivery services and recreational riders seeking a reliable e-bike.
