

# Step-Through Frame Electric Bicycle with Luggage Rack

This electric bicycle is designed with a step-through frame, making it easy to mount and dismount. It includes a rear luggage rack for added convenience.

## Product Overview

### Designed for Utility and Ease

This step-through frame electric bicycle combines ergonomic design with practical cargo solutions, making it an ideal choice for urban commuting and delivery tasks. The low-frame geometry allows for effortless mounting and dismounting, while the integrated rear luggage rack provides excellent carrying capacity. Equipped with a robust lighting system and high-traction, puncture-resistant tires, this bicycle ensures consistent performance and safety for the daily rider.
