

Step-Through Frame Electric Bicycle with Rear Storage

This electric bicycle has a step-through frame for easy access and a rear compartment for storage. It is powered by an electric motor and battery, making it suitable for urban commuting.

Product Overview

Designed for Urban Convenience

This electric bicycle features a user-friendly step-through frame design, making it exceptionally easy to mount and dismount for riders of all abilities. Equipped with a dedicated rear storage compartment, it offers a practical solution for carrying personal belongings during daily commutes or leisure rides. The bike combines a comfortable seating position with a stylish aesthetic, powered by an integrated electric motor and battery system for efficient, eco-friendly transportation.
