

Step-Through Frame Electric Bike with Rear Storage

This electric bike features a step-through frame, making it easy to mount and dismount. It includes a rear storage compartment for carrying essentials.

Overview

Urban Commuter Electric Bike

This step-through electric bike is engineered for efficient urban commuting and short-distance travel. Its accessible frame design ensures ease of use, while the integrated rear storage compartment provides practical utility for daily errands. Combining a distinct aesthetic with essential safety features like headlights and mirrors, this model offers a reliable solution for professional transport needs.
