

Step-Through Frame Electric City Bicycle

This electric bicycle is designed for urban commuting and recreational riding. It features a step-through frame, a front basket, and a rear rack for storage and convenience.

Overview

Designed for Urban Mobility

This step-through frame electric city bicycle is engineered for effortless urban commuting and recreational riding. The design prioritizes accessibility with its step-through geometry for easy mounting, while the integrated electric motor provides consistent pedal assistance for hills and longer distances. Built-in storage solutions and safety features ensure a practical and secure daily transport experience.

Key Features

Integrated Smart Systems

- ACS Automatic energy storage system
- GPS automatic positioning system
- DMS remote monitoring system
