

Step-Through Frame Electric City Bicycle

This electric bicycle has a step-through frame for easy access and a rear rack for carrying items. Fenders and integrated lights make it suitable for urban commuting.

Overview

Designed for Urban Mobility

This electric city bicycle features a convenient step-through frame design, allowing for effortless mounting and dismounting in daily urban environments. Engineered for practicality, it comes fully equipped with essential accessories including a rear cargo rack and protective fenders. With integrated lighting systems for visibility and a comfortable, upright riding geometry, this bike is an ideal solution for efficient commuting and leisure riding.
