

Step-Through Frame Electric City Bike

This electric city bike is powered by a lithium-ion battery and designed for urban commuting and recreational riding. It features a step-through frame, front basket, and rear rack.

Overview

Urban Commuter Electric Bicycle

This electric city bike is designed specifically for urban commuting and recreational riding, featuring a user-friendly step-through frame for easy mounting and dismounting. It comes fully equipped with practical utility features including a front basket and rear rack for cargo, as well as fenders and lights for all-weather safety. The lithium-ion battery system ensures efficient power for daily trips, while the adjustable hydraulic front fork provides a smooth and comfortable riding experience.
