

Step-Through Frame Motorcycle

These motorcycles feature a step-through frame design for easy mounting. The models come in different colors and minor design variations, while maintaining a similar frame and engine layout.

Overview

Versatile Step-Through Design

This step-through frame motorcycle offers a practical and accessible design suitable for daily commuting and urban transport. Engineered for reliability and ease of use, the frame geometry allows for effortless mounting and dismounting. Available in multiple aesthetic configurations, this model series provides a consistent engine layout and robust build quality for professional fleet or retail applications.
