

Step-Through Frame Motorcycle with Luggage Rack

This motorcycle features a step-through frame and is designed for practical urban transport. It includes a luggage rack for carrying cargo and has chrome accents.

Overview

Versatile Step-Through Commuter

This step-through frame motorcycle is designed for practical, everyday utility and comfortable urban commuting. Featuring a reliable single-cylinder engine and a robust luggage rack, it offers a balance of performance and cargo capacity. The classic design includes a comfortable one-piece seat and a streamlined fuel tank, making it an ideal choice for professional delivery or personal transport applications.
