

Step-Through Frame Motorcycle with Luggage Rack

This motorcycle features a step-through frame design and a rear luggage rack. Its design suggests a practical and economical mode of transportation.

Overview

Practical Commuter Design

This step-through frame motorcycle is engineered for efficiency and daily utility. Featuring a robust rear luggage rack and an air-cooled engine, it serves as a reliable solution for urban transportation and light cargo needs. Its practical design prioritizes ease of mounting and economical operation for professional or personal use.
