

Step-Through Frame Scooter

This scooter has a step-through frame, making it easy to mount and dismount. It is equipped with front and rear suspension, mirrors, indicators, and a rear luggage rack.

Overview

Versatile Step-Through Urban Scooter

This step-through frame scooter is engineered for convenient urban commuting and daily utility. Featuring a reliable single-cylinder engine and a robust suspension system, it offers a smooth ride across various city terrains. The design prioritizes ease of access and practicality, including essential safety features like indicators and mirrors, alongside a rear luggage rack for cargo transport.
