

Step-Through Motorcycle with Fairing

This motorcycle features a step-through frame, front fairing, and chrome accents. It is equipped with a single-cylinder engine and spoke wheels.

Overview

Versatile Step-Through Design

This step-through motorcycle combines practical urban utility with classic styling elements like chrome accents and a front fairing. Designed for ease of use and comfort, it features a padded seat and a convenient rear luggage rack for daily transport needs. The single-cylinder engine ensures reliable performance, while the distinct blue and silver color scheme provides a modern, professional aesthetic.
