

Step-Through Motorcycle with Luggage Rack

This step-through motorcycle is designed for urban commuting and general transportation. It features a single-cylinder engine, front and rear fenders, spoked wheels, and includes both a front cargo rack and a rear luggage rack with a backrest.

Overview

Versatile Urban Commuter

This step-through motorcycle is engineered for reliable urban commuting and daily transportation needs. Featuring a classic aesthetic with a distinct red finish and chrome accents, it combines durability with practical cargo solutions. The inclusion of both a front cargo rack and a rear luggage rack with an integrated backrest provides exceptional utility for various transport tasks.
