

Stone Cutting Saw

This stone cutting saw is designed for cutting marble, tile, granite, and other stone materials. It features a high-speed motor and a diamond-tipped blade that provides clean and precise cuts.

Product Overview

Professional Stone Cutting Solution

This specialized power tool is engineered for precision cutting of marble, tile, granite, and various stone materials. It features a high-speed motor paired with a diamond-tipped blade to deliver clean, accurate results for demanding projects. The integrated water cooling system effectively minimizes dust and prevents overheating, while the adjustable base supports versatile bevel cutting capabilities.

Technical Specifications

Blade Compatibility	Diamond-tipped blade
Cooling Mechanism	Yes
Cutting Capabilities	Marble, Tile, Granite, Stone

Features & Safety

Safety Features

- Blade guard
- Secure grip handle

Design Advantages

Compact Design • Adjustable Base • Bevel Cuts
