

Stone Material Cutter

This stone material cutter is engineered for precise and efficient cutting of marble, granite, tile, and other stone materials. It features adjustable cutting depth and a water cooling system to minimize dust and extend blade life.

Overview

Professional Stone Cutting Solution

This high-performance stone material cutter is engineered for precision and efficiency in demanding environments. Designed specifically for marble, granite, and tile applications, it features a robust motor and adjustable cutting depth to handle various material thicknesses with ease. The integrated water cooling system effectively minimizes dust during operation while significantly extending the service life of the cutting blade.

Technical Specifications

Key Features

- Powerful motor for heavy-duty cutting
- Adjustable cutting depth
- Water cooling system for dust reduction
- Durable construction for long-lasting use

Compatible Materials	Marble, Granite, Tile, Stone
Cooling System	Yes

Target Audience

Recommended Users

Stone Fabricators • Tile Installers • Construction Workers
