

Stoning Hammer with Hickory Handle

This stoning hammer is designed with a robust striking head and a durable hickory handle. It is suitable for demolition, shaping stone, and other heavy-duty applications.

Product Overview

Professional Stoning Hammer

This heavy-duty stoning hammer is engineered for demanding tasks including demolition and stone shaping. It features a premium American hickory handle that provides an excellent balance of strength and shock absorption. The striking head is paired with a durable steel protector to ensure longevity during rigorous industrial applications.
