

Straight Grinder 1100W

This straight grinder is designed for various grinding and polishing applications. Key specifications include a wheel diameter of 125/100mm, a hole diameter of 20mm, and a no-load speed of 5000rpm.

Product Overview

Straight Grinder 1100W Overview

This professional-grade straight grinder is engineered for precision grinding and polishing applications. With a robust 1100W power input and a reliable no-load speed of 5000 RPM, it delivers consistent performance across demanding tasks. The unit is designed with versatile disc compatibility to handle both 100mm and 125mm wheel sizes, making it an essential tool for metalworking and surface finishing workshops.

Technical Specifications

Rated Input Power	1100 W
No-Load Speed	5000 r/min
Rated Voltage	220V
Rated Frequency	50/60Hz

Dimensions and Compatibility

Wheel Diameter	100mm, 125mm
Hole Diameter of Disc	20 mm
Packing Size (LxWxH)	58.5 x 22 x 29.5 cm
