Product Overview

High-Efficiency Submersible Pump

This versatile 2000L/H submersible water pump is engineered for reliable circulation in both fresh and saltwater environments. Featuring a durable ABS construction and a quiet, brushless permanent magnetic motor, it ensures long-term operational stability. With its IP68 waterproof rating and compact design, it is an ideal solution for aquariums, hydroponic systems, and various water feature applications.

Performance Metrics

Operational Performance

2000 L/H

Max Flow Rate

4.5 M

Max Static Head

35 dB

Noise Level

Technical Specifications

Power Requirements

Parameter	Value
Rated Voltage	24V DC
Power Consumption	24W - 36W
Max Rated Current	1.5A
Power Sources	Solar, DC Source, Adapter, Battery

Physical Dimensions

- Dimensions: 150mm x 80mm x 12mm
- Weight: 1.75kg
- Outlet Diameter: 22.5mm

Safety and Environment

Operating Limits

- Max working temperature: 60 Celsius
- Fluid types: Fresh and salt water
- Lifespan: >30,000 hours

Compliance and Ratings

IP68 Waterproof, Dry Run Protection, Blocking Protection, CE Certified
