

Submersible Borehole Water Pump

This submersible borehole pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, industrial, garden, and irrigation applications.

Overview

High-Performance Submersible Borehole Pump

This submersible borehole pump is engineered for reliable water supply from wells and reservoirs, making it an ideal solution for domestic, civil, and industrial applications. Designed for durability and consistent performance, it supports both agricultural and irrigation needs. With robust construction and versatile voltage options, this pump ensures efficient operation in demanding deep-well environments.

Operating Conditions

Maximum Fluid Temperature	40 °C
Maximum Sand Content	3 %
Maximum Immersion Depth	50 m

Technical Specifications

Minimum Well Diameter

Model Series	Min. Diameter
3QG	3 inches
4QG	4 inches

Motor Configuration

- Rewindable motor
- Single-phase: 220V - 240V/50Hz
- Three-phase: 380V - 415V/50Hz
- Single phase with built-in capacitor

Compliance & Standards

Certifications	CE, ISO 9001, RoHS, GS, CCC
Curve Tolerance Standard	ISO 9906

Warranty & Support

Warranty Period	2 years
