

# Submersible Deep Well Borehole Pump

This submersible borehole pump is designed for water supply from wells or reservoirs. It is suitable for domestic, civil, and industrial applications, as well as for garden and irrigation.

## Overview

### Submersible Deep Well Borehole Pump

This high-performance submersible pump is engineered for reliable water supply from wells and reservoirs, catering to domestic, civil, and industrial applications. Designed for durability and efficiency, it features a rewindable motor and multi-stage operation. It is compatible with both single-phase and three-phase power systems and includes options for advanced control boxes to ensure operational safety and longevity.

## Operating Conditions

Maximum Fluid Temperature	40 °C
Maximum Sand Content	0.15 %
Maximum Immersion Depth	50 m

## Technical Specifications

### Minimum Well Diameter

Model Series	Min. Well Diameter
3NK	3 inch
4NK	4 inch

### Power Supply Options

- Single-phase: 220V - 240V/50HZ
- Three-phase: 380V - 415V/50HZ

Motor Type	Rewindable motor
Control Options	Start control box, Digital auto-control box

## Compliance & Warranty

### Certifications

ISO 9906 • CE • RoHS • CCC • GS

### Warranty

**2 years**

Warranty Period
