Overview

High-Efficiency 48V Deep Well Solution

The 4DSP6/60-D48/750 is a robust submersible deep well pump engineered for reliable water extraction in both domestic and agricultural settings. Featuring a durable stainless steel shaft and POM impeller, this unit is built for longevity and corrosion resistance. Optimized for 48V DC power, it delivers a powerful performance with a maximum flow rate of 6.0 cubic meters per hour and a maximum head of 60 meters, making it an excellent choice for off-grid or solar-powered water systems.

Technical Specifications

Power Rating	750 W
Voltage	48 V
Max Flow Rate	6 m3/h
Max Head	60 m
Outlet Size	1 inch

Construction & Materials

Construction Materials	Stainless Steel Shaft, Copper Wire Motor, POM Impeller
Cable Length	2 m
Cable Type	Blue flat cable
