

Submersible Deep Well Water Pump

This submersible pump is designed for efficient water extraction from deep wells. With a 7.5 HP motor, it delivers 200 L/min at 2850 r/min, suitable for various applications requiring reliable water pumping.

Overview

High-Efficiency Submersible Water Pump

This submersible deep well water pump is engineered for reliable and efficient water extraction in professional applications. It is available in a wide range of diameters from 2 inches up to 6 inches to suit various well sizes and flow requirements. Designed for durability and consistent performance, this unit provides a robust solution for demanding water pumping needs.

Technical Specifications

Available Diameters

- 2 inch
- 2.5 inch
- 3 inch
- 3.5 inch
- 4 inch
- 6 inch

Rated Power

7.5 HP

Motor Power

Max Flow Rate

200 L/min

Water Flow

Rotation Speed

2850 r/min
