

# Submersible Drainage Sump Pump

This submersible drainage sump pump is designed for efficient water removal. It features a float switch for automatic operation.

## Product Overview

### Professional Drainage Solution

This stainless steel AISI 304 submersible drainage pump is engineered for reliability in clean or slightly dirty water applications. Featuring an open impeller design, it safely handles solids up to 10mm, making it ideal for clearing cellars, garages, pools, and fountains. The unit is built for durability with a double-sided mechanical seal and an IP68-rated motor, ensuring seamless performance in submerged environments.

## Technical Specifications

### Motor & Electrical

- Insulation Class B
- IP68 Protection Rating
- Built-in thermal protector (Single Phase)
- 10m Power cable included

### Operating Limits

<b>40 °C</b> Max Liquid Temp	<b>10 mm</b> Max Solid Passage
---------------------------------	-----------------------------------

### Construction Materials

Stainless Steel AISI 304, Buna-N Seals, Silicon Carbide, Carbon

## Performance Data

### Performance Comparison

Model	Power	Capacitor
QDX370BS	0.37kW	12.5µF
QDX550BS	0.55kW	16µF
QDX750BS	0.75kW	25µF
QDX1100BS	1.1kW	30µF
