Product Overview

Reliable Submersible Wastewater Solution

This submersible sewage pump is engineered for efficient wastewater management in both residential and light commercial environments. Constructed from durable, corrosion-resistant plastic, it features an integrated float switch for automatic, hands-free operation. Designed to handle solids up to 35mm, it provides a robust solution for drainage systems requiring reliable performance.

Technical Performance

Rated Power	550 W
Maximum Flow	10.5 m ³ /h
Maximum Lift (Head)	7 m
Maximum Working Pressure	1.3 bar

Operational Limits

Maximum Diving Depth	7 m
Max Particle Passage	35 mm

Electrical Specifications

Voltage/Frequency	220V / 50Hz
-------------------	-------------

Operational Features

Operation Mode
Float Switch • Automatic
