

# Submersible Sewage Pump with Float Switch

This submersible sewage pump is designed for efficient wastewater removal. It features robust construction for durability and long-term performance.

## Product Overview

### High-Efficiency Wastewater Management

This submersible sewage pump is engineered for robust performance in residential, commercial, and industrial wastewater applications. Built for longevity and reliability, it efficiently manages solids and debris in demanding environments. The integrated float switch enables seamless, automatic operation based on real-time water levels.

## Technical Specifications

### Design Features

- Submersible design
- Solid handling capability
- Durable construction
- Automatic float switch activation

### Suitable Applications

Residential, Commercial, Industrial

### Operation Mode

Automatic (Float Switch)
