

Submersible Water Pump 250W

This two-pole induction motor pump is designed for continuous service. It features Class B insulation and IP68 protection.

Product Overview

Professional Submersible Water Pump

This 250W submersible pump is engineered for reliability and ease of use in clean water applications. It is ideal for a variety of tasks including domestic water movement, garden irrigation, and emptying water tanks. Designed for continuous duty, this pump provides a robust solution for efficient drainage and fluid transfer.

Performance Metrics

Power Consumption

250 W

Power

0.34 HP

Horsepower

Flow Rate	150 L/min
Maximum Head (Hmax)	5.5 m
Rotational Speed	2860 r/min

Technical Specifications

Electrical Requirements

- 220-240V
- 50Hz

Protection Class	IP68
Duty Cycle	Continuous Duty

Compliance and Standards

Certifications	CE
