

# Submersible Water Pump

This submersible pump is designed for efficient water removal in various applications. It features a durable stainless steel housing and a robust motor for reliable operation.

## Product Overview

### High-Performance Submersible Pump

This submersible pump is engineered for demanding applications including sewage treatment, industrial draining, and agricultural irrigation. It features a durable construction capable of handling solids up to 25mm in size, ensuring reliable performance in challenging environments. The unit includes a rewindable motor and an optional floating switch for automated water level control, making it a versatile solution for drainage and water transfer needs.

## Operating Conditions

Max Fluid Temperature	40
Maximum Immersion Depth	10 m
Max Solid Passage	25 mm

## Technical Specifications

### Power Supply Options

- Three-phase: 380V-415V/50Hz
- Single-phase: 220V-240V/50Hz

### Key Performance Metrics

**2860 r/min**  
Speed

**350 W**  
Power

**2.6 A**  
Rated Current

### Ingress Protection

IP68

### Motor Type

Rewindable

## Support & Warranty

Warranty	1 year
Optional Features	Floating switch
