

# Submersible Water Pump with Float Switch

This submersible water pump is designed for efficient water removal. It features a stainless steel housing for durability and includes a float switch for automatic operation.

## Product Overview

### High-Efficiency Submersible Pump

This robust submersible water pump is engineered for reliable clean water handling in domestic, irrigation, and gardening applications. Featuring a durable stainless steel housing, it offers excellent corrosion resistance and long service life. The integrated float switch enables fully automatic operation, ensuring optimal water level management without manual intervention.

## Technical Performance

### Performance Specifications

**0.75 kW**

Power Rating

**50 m**

Maximum Head

**90 L/min**

Maximum Flow

Operating Flow Range

10-90 L/min

## Electrical Specifications

Power Supply

220V/50Hz

Rated Current

5.5 A

Capacitor

18 uF / 450V

## Mechanical Details

Outlet Size

1 inch

Motor Speed

2850 r/min

## Compliance and Protection

Ingress Protection

IP68

Certifications

CE
