Product Overview

Professional Submersible Pump

This submersible water pump is engineered for efficient water transfer and drainage in a variety of professional applications. Built with a durable body, it is capable of handling particle sizes up to 25mm, making it ideal for clearing flooded areas and general pumping tasks. The unit delivers consistent performance with a balanced power-to-flow ratio.

Performance Metrics

Key Performance Indicators

8 m

Maximum Head

60 L/min

Max Flow Rate

3450 rpm

Speed

Technical Specifications

Power Requirements

Parameter	Value
Power Rating	0.125 kW (1/6 HP)
Voltage	110 V
Frequency	60 Hz

Fluid Handling

Capable of handling solid particle sizes between 20 mm and 25 mm.
