

# Sugar Reducing Multi-Function Rice Cooker

This sugar-reducing rice cooker minimizes the amount of sugar in cooked rice. It features multiple cooking programs including rice, fine rice, claypot rice, reheat, mixed rice, stew, soup, and congee, along with preset and time functions.

## Product Overview

### Professional Sugar-Reducing Rice Cooker

This multi-function 5L rice cooker is engineered to support healthier lifestyles by reducing sugar content in cooked rice by up to 50%. Built with high-quality 201 stainless steel components, including the inner pot and steamer, it ensures durability and food safety. The unit features versatile cooking modes suitable for professional or home kitchens, providing consistent performance across various recipes from soup to congee.
