

Super-Finishing Abrasive Stone

This super-finishing stone is designed for achieving extremely fine surface finishes on various materials. It is used in precision grinding and polishing applications to remove minimal material and create a smooth, accurate surface.

Product Overview

Precision Super-Finishing Stone

Designed for demanding industrial applications, this ceramic abrasive stone offers superior cutting edges and exceptional productivity. It features excellent toughness and form-holding capabilities, making it ideal for precision grinding, honing, and profile grinding. Engineered for consistent surface integrity, this tool ensures high dimensional accuracy in manufacturing sectors like aerospace, automotive, and medical device production.

Performance Highlights

1 Level

Burn-Free Finishing

100 %

Form Holding Performance

Key Features

Material Benefits

Ceramic Abrasive, High Productivity, Superior Toughness, Excellent Balance, Burn-Free

Compatibility & Usage

Target Industries

- Aerospace
- Automotive
- Medical Device Manufacturing
- Precision Engineering

Safety & Standards

Compliance and Standards

Standard	Application
GB2494-2003	Abrasive Product Standards
GB4674-1984	Safe Usage Guidelines
