Product Overview

Reliable Power, Minimized Noise

This super silent diesel generator is engineered for consistent and efficient power delivery in noise-sensitive environments. Featuring a robust engine and a specialized soundproof enclosure, it ensures durability while maintaining a quiet operation. With integrated safety systems, including circuit breakers and low oil warnings, it serves as a dependable power source for both professional and domestic applications.

Technical Specifications

Key Features

- Super Silent Operation
- Voltage Display
- Frequency Monitoring
- Portable Design with Wheels
- Soundproof Casing

Frequency

50 Hz

Output Capabilities

AC Output, DC Output

Safety & Compliance

Safety Systems

- Circuit Breaker
- Overload Protection
- Low Oil Shutdown
- Battery Warning Indicator
- Oil Alert Lamp

Compliance Badges

Silent Series • 50Hz Standard
