

Super Silent Diesel Generator Set

This air-cooled diesel generator provides reliable power with reduced noise levels, suitable for noise-sensitive environments. It features a durable construction with a protective enclosure and a comprehensive control panel for easy monitoring and operation.

Product Overview

Industrial-Grade Power Solution

This super-silent diesel generator is engineered for reliable performance in both industrial and commercial environments. Featuring an advanced air-cooled design and high-quality internal bearings, it ensures consistent output and durability even in demanding conditions. Its robust, portable enclosure is specifically designed to minimize noise levels while providing excellent protection against environmental factors.

Technical Specifications

Cooling System	Air-Cooled
Fuel Type	Diesel
Internal Bearing Components	NSK, NTN

Performance Features

Key Operational Advantages

- Super silent operation suitable for noise-sensitive areas
- Patent-pending structural design to prevent lubrication issues
- Enhanced durability of cooling components
- Longer stroke design for increased power output

Available High-Output Models

DEK4500SL • DEK6000SL

Portability	Yes
