

Super Thin Abrasive Cutting Wheel for Stainless Steel

This abrasive cutting wheel is designed for stainless steel. It has a maximum operating speed of 80 m/s and complies with EN12413 safety standards.

Product Overview

Precision Cutting for Stainless Steel

This super thin abrasive cutting wheel is engineered specifically for clean and efficient cutting of stainless steel. With a thickness of only 1.2mm, it minimizes material loss and reduces cutting time while maintaining high precision. Designed for safety and durability, it meets rigorous international standards, making it an ideal choice for professional industrial applications.

Performance Metrics

Operating Capacity

12200 RPM

Maximum RPM

80 m/s

Operating Speed

Technical Specifications

Dimensions	125 x 1.2 x 22 mm
Abrasive Formulation	41-WA60P4BF2

Compliance and Standards

Safety Standards	EN12413, ISO 9001, MPA Z-03309
