

SUPER16 Series Battery Charger

The SUPER16 series battery charger is designed for charging various types of batteries. It features heavy-duty cables and an analog ammeter for monitoring charging current.

Overview

The SUPER16 Series Battery Charger

The SUPER16 series battery charger is a robust and reliable device engineered for versatile battery charging applications. Featuring a durable red enclosure with integrated ventilation for heat dissipation, it ensures consistent performance. The unit is designed for ease of use and safety, equipped with heavy-duty cables, alligator clips, and clear analog monitoring.

Technical Features

Design & Build

- Durable red enclosure
- Integrated ventilation slots
- Analog ammeter for current monitoring
- Heavy-duty cables
- Secure alligator clips
- Integrated carrying handle
