Product Overview

High-Efficiency Production

This automatic roll forming machine is engineered for the high-volume production of supermarket shelves and metal storage racks. By automating the shaping process, it ensures consistent quality, dimensional accuracy, and significant labor cost savings. Its robust construction and advanced hydraulic systems make it an ideal solution for manufacturers looking to streamline their industrial shelving production lines.

Technical Specifications

Productivity

22.5 m/min
Speed

Processing Material	GI strip coils
Processing Thickness	0.45 mm
Roller Material	Cr12

Service & Warranty

Warranty Time	1 Year Warranty
Customization	Yes
