Product Overview

Reliable Surface-Mounted Lighting

This surface-mounted LED bulkhead light is engineered for both indoor and outdoor versatility, featuring a robust PC body and ABS frame construction. Designed to provide uniform, glare-free illumination, it is an ideal solution for corridors, stairwells, and pathways. With its IP54 rating, this fixture ensures reliable performance and resistance to environmental factors, making it a dependable choice for demanding architectural lighting applications.

Technical Specifications

Ingress Protection

IP54

Input Voltage AC 220-240V, 50Hz

Beam Angle 120 °

Rated Life Time 25000 hours
