

Surface Mount Rim Lock

This surface-mounted rim lock is designed for enhanced security and ease of installation. Featuring a robust brass-plated construction for durability and corrosion resistance, this lock is suitable for a variety of door types.

Product Overview

High-Security Surface Mount Rim Lock

This high-quality surface-mounted rim lock is engineered for enhanced security and straightforward installation across various door types. Constructed with robust brass-plating, it offers exceptional durability and resistance to corrosion for long-term reliability. The smooth-operating bolt and secure cylinder mechanism make it an ideal choice for both residential and commercial applications where discreet, effective surface mounting is required.
