

Surface Protection Polymer Wax

This polymer wax offers a protective coating for various surfaces. It enhances the appearance and provides long-lasting protection.

Product Overview

Professional Surface Protection

This high-quality polymer wax is engineered to provide a durable protective coating for various surfaces. Designed for professional use, it effectively enhances the appearance of treated materials while offering long-lasting shielding against environmental wear. The product comes complete with a dedicated applicator, ensuring precise and easy application for optimal results.

Packaging & Contents

Included Accessories

- Applicator tool

Container Type	Metallic tin
----------------	--------------

Application

Application Method	Manual application via included applicator
