

Surveillance Camera with IR Night Vision

This high-performance video camera is designed for surveillance and monitoring. It features integrated infrared (IR) LEDs for night vision and a mounting bracket for flexible installation.

Product Overview

Professional Surveillance Camera

This high-performance surveillance camera is designed for reliable monitoring in a wide range of environments. With its robust, compact cylindrical housing and integrated infrared LEDs, it ensures clear vision even in low-light or nighttime conditions. The inclusion of a versatile mounting bracket facilitates flexible installation, making it an ideal choice for both indoor and outdoor security applications.

Technical Specifications

Night Vision	Yes
Form Factor	Cylindrical
Environment	Indoor, Outdoor

Key Features

Key Capabilities

- Integrated IR night vision LEDs
- High-resolution imaging
- Durable housing construction
- Flexible mounting bracket included
