

SUV Rear Bumper Guard with Spare Tire Mount

This rear guard is designed for SUVs and constructed from chrome-finished steel tubing. It provides protection to the rear bumper and bodywork, and also features a spare tire mount and integrated bumper bar.

Product Overview

Rugged Rear Protection and Utility

This SUV rear bumper guard is engineered to provide superior protection for your vehicle's rear bodywork and bumper against impacts. Constructed from high-quality chrome-finished steel tubing, it combines durability with a sleek aesthetic. It also integrates a dedicated spare tire mount, making it a versatile utility solution for off-road and touring applications.

Primary Application

SUV • Off-road • Utility
